EXCELLENCE IN SINGING

multilevel learning and multilevel teaching

VOLUME 5: Managing vocal health

CELUMBRA
Redmond, WA

TABLE OF CONTENTS

Introduction 1

Chapter 20: The Healthy Voice 5

Identifying Vocal Health 7

Maintaining Vocal Health 9

Hydration 10

Nutrition and Fitness 10

Good nutrition 11

Maintaining healthy weight 11

Exercise 13

Prescription and Over-the-Counter Medicines 14

Sleep 20

Sleeping pills 20

Sleeping schedule 21

Travel 21

Effects of travel 21

Combating jet lag and other effects of flying 22

Cigarette Smoking 24

Infections 24

Cancer 25

Kicking the habit 25

Nutritional help for smokers 25

Secondary smoke 26

Substance Abuse 26

Illegal drugs 27
Alcohol 28
Caffeine 28
Vocal Use 29
Vocal Fatigue 29
Amplifying the voice 30
Bogart–Bacall syndrome 32
Excessive vocal use 32
Excessive loudness 33
Self-amplifying the voice 34
Healthy Practicing and Performing 34
Warming Up and Cooling Down 35
Singing Safely When Hoarse 36
Lesson 36
Rehearsal 37
Audition 38
Performance 38
Eating for an Optimal Performance 38
Chapter 21: Vocal Health Problems 41
Recognizing Vocal Health Problems 42
Hearing and Feeling
When Something Is Wrong 42
Clearing Up Counterproductive

Referring Your Student to a Doctor 48
When to Refer 49
When to wait before referring your student 50
Whom to Refer To 51
Preparing Your Student for a Medical Examination 52
Preparing a Medical History 53
Describing Your Student's Vocal Training 56
Describing Your Student's Habits 57
The Physical Examination 58
Visual Examination 58
Mirror exam 59
Endoscopic tests 59
Acoustic Examination 61
Aerodynamic Examination 62
Pulmonary Examination 63
Sinus X-ray and CT Scan Examination 64
Hearing Examination 64
Allergy Examination 65
Treating Vocal Health Problems 65
Behavioral Voice Therapy 66
Pharmacological Treatment 67
Surgical Treatment 68
Recovering from surgery 69
Recovery plan after surgery 71
When surgery fails 76
Possible complications from surgery 78
Recovery Exercises 81
The first two weeks 83
Between two and four weeks 83
After four to six weeks 84
Causes of Vocal Health Problems 85
Functional Disorders 86
Organic Disorders 86

Neurological Disorders 96
Recurrent laryngeal nerve (RLN) adductor paralysis 96
Recurrent laryngeal nerve (RLN) abductor paralysis 97
Superior laryngeal nerve (SLN) paralysis 97
Multiple sclerosis 98
Amyotrophic lateral sclerosis (ALS) 98
Myasthenia gravis 99
Spasmodic dysphonia 99
Illness 100
Allergies 105
Endocrine dysfunction 107
Temporomandibular joint dysfunction (TMJ) 111
Asthma 112
Digestive system problems 114
Sleep apnea and snoring 119
Other Health Conditions 120
Facial cosmetic and reconstructive surgery 120
*Head and neck cancer 120
Breast cancer and reconstruction 121
Health Conditions Specific to Women 123
Menstruation 123
Pregnancy 124
Menopause 125
The Psychological Ramifications of Vocal Health Problems 126
Stigma and Anxiety 127
Isolation, Secrecy 129
Recovery and Despair 130
The Teacher Questions Himself 131
Learning Personal Skills and Insight 132

Chapter 22: Vocal Health Case Studies 137

Case One: Outdoor Theater Performer 142

Evaluation 142

Perceptual impressions of vocal quality 143

Videostroboscopy results 144

Intervention 145

Behavioral program 145

Surgery, results, and follow-up 147

Return to Performance 148

Case Two: Studio, Stage, and Lounge Singer 149

Evaluation 150

Perceptual impressions of vocal quality 151

Laryngeal exam and videostroboscopy results 151

Intervention 151

Behavioral program 152

Surgery, results, and follow-up 152

Return to Performance 153

Case Three: Musical Theater Performer 154

Evaluation 155

Perceptual impressions of vocal quality 155

Videostroboscopy results 156

Intervention 156

Return to Performance 157

Case Four: Rock Band Singer 157

Evaluation 158

Physical examination 158

Perceptual impressions of vocal quality 158

Videostroboscopy results 159

Intervention 159

Behavioral and pharmacological programs 159

Surgery, results, and follow-up 159

Return to Performance 160

Case Five: Adolescent Singer 161
Evaluation 161
Perceptual impressions of vocal quality 161
Laryngeal exam and videostroboscopy results 162
Intervention 162
Behavioral program 162
Surgery, results, and follow-up 163
Return to Performance 164
Case Six: Classically Trained Singer 164
Evaluation 165
Perceptual impressions of vocal quality 165
Laryngeal exam and videostroboscopy results 165
Intervention 166
Return to Performance 167
Case Seven: Multitalented Professional 167
Evaluation 168
Perceptual impressions of vocal quality 168
Laryngeal exam and videostroboscopy results 168
Intervention 169
Behavioral and pharmacological programs and results 169
Return to Performance 170
Case Eight: Up-and-Coming Operatic Superstar 170
Evaluation 171
Perceptual impressions of vocal quality 172
Videostroboscopy results 172
Intervention 172
Behavioral and pharmacological programs 172
Laryngeal exam results and follow-up 174
Return to Performance 174
